

Dear Shiplover and Historian

To get informations about the history of the United States Maritime Commission, it's still necessary to visit the National Archives and the Department of Transportation at Washington D.C., or other facilities around the US. After twelve years in researchings in the D.C.area, I have collect a huge amount of documents. This is the second reproduction of an official Maritime Commission report. After transfer the informations of vessels sold under the "Merchant Ship Sales Act of 1946" from copies into an Excel sheet and then created an PDF file.

This report consists all informations of "Cost of War-Built Vessels from 1936 to 1946".

As an addition to the original report, to get a better usability in searching informations, I have add the contract numbers, builders hull numbers and the building yards.

To use the file open the boookmarks. All vessels arranged alphabetically by yard and then by MC hullnumber. You also can use the spyglass, by typing in a search term (MC Hull, Contractnumber, Name, Yard or part of Name or Yard).

To use the file you need Adobe® Acrobat Reader 5.0 or 6.0

Saulheim, the September 3rd 2004

COST OF WAR-BUILT VESSELS

FROM INCEPTION, FROM OCTOBER 25, 1936 to JUNE 30, 1946

COST OF WAR-BUILT VESSELS

FROM INCEPTION, OCTOBER 25, 1936 to JUNE 30, 1946

The purpose of this statement is to furnish the cost, by hulls, of the ships commonly known as "War-Built Vessels". These, as mentioned on page three of the report to the Bureau of the Budget by W.L. Slattery, Director of Finance, under the heading of "Maritime Commission Bookkeeping", include ships previously classified as ships built under the Long Range Program. Therefore, this statement covers all vessels constructed by the Commission since 1936 and those in process as of June 30, 1946 with the exception of nine under construction at Bethlehem Sparrow Point Yard.

The statement, under the first four columnar headings, reflects payments for shipbuilders cost plus fee, the cost of Commission Procurement including the surplus materials which was distributed on a dollar basis, facility cost, and the Maritime Commission's administrative cost. The fifth column reflects the total cost to the Commission for the war-built vessels and since all costs were taken from the latest available records as of June 30, 1946 it represents, as closely as can be presently estimated, the expenditures of the Commission for the program.

The method of computing the amount of adjusted disbursements and the allocation thereof by cost classification is shown in the following sets of figures:

DISBURSEMENTS

Gross Disbursements	\$19,469,858,030
Estimated Cost to Complete Ships in Progress	<u>88,362,287</u>
Total	\$19,558,220,319

Deduct:

Disbursements Unrelated to Vessel Construction	\$ 4,320,262,704
Recoveries and Miscellaneous Credits	\$ 1,991,648,757
<u>Less: Reimbursements from other M.C.</u>	
Appropriations	\$ 1,598,926,421
Stanby Yards (Operating Facilities)	392,722,336
Inventories in Warehouses	86,266,260
Payments to June 30, 1946 for nine non war-built	47,510,404
R1-S-DH1's at Bethlehem-Sparrows Point	<u>2,253,315</u>
Total Deductions	<u>8,849,015,019</u>
Adjusted Disimbursements	<u>\$14,709,205,298</u>

ALLOCATION OF DISIMBURSEMENTS BY COST CLASSIFICATIONS

Shipyards Cost-Plus-Fees	\$ 9,401,260,758
Commission Procurement (Including Surplus)	4,664,202,784
Facilities	499,417,369
Administration	<u>144,324,387</u>
Total Distributed by Hulls on attached statement	<u>\$14,709,205,298</u>

Cost of War-Built Vessels from October 25th 1936 to June 30th 1946
